Seminar topics for Wireless Sensor Networks

1. Mica, Mica2, MicaZ (architecture, communication, wireless interface, difference and similarity) (2 students)
2. BTNode
3. Scatterweb (sensor node)
4. EYES (sensor node)
5. MiLAN (infrastructure)
6. Sylph/iBadge (sensor node + infrastructure)
7. Cricket (location infrastructure)
8. TinyOS (runtime environment) (2 students)
9. TinyDB (query language)
10. LEACH (self-organising protocol)
11. Zigbee (communication standard) (2 students)
12. FIRE (Fire Information and Rescue Equipment) (Application)
